About Junior Achievement (JA)
Our mission is to empower young people to own their economic success. In partnerships with businesses and educators, JA brings the real world to students, opening their minds to their potential, and preparing them for the world of work. Our curriculum is focused on teaching financial literacy, entrepreneurship, and workforce readiness through turnkey lessons delivered by corporate or community volunteers.

About JA Summer Institute
This summer, 40-60 high school students will join Junior Achievement of Northern New England in-person for 5 days for our annual JA Summer Institute. During this program, students will engage in a series of interactive company-led workshops focused on learning the basics of personal finance, the stock market, the design thinking process, pitching a product, career exploration, interviewing skills, and more. Students will take what they’ve learned throughout the week and apply it to the culminating session, Speed Networking, where they will connect with business professionals from a variety of industries.

Application Deadline: Friday, June 10, 2022
*Decisions will be sent out by Friday, June 10, 2022
